

CLEANION PRO MARINE

Application and Specifications

Application

Before use shake the bottle very well. Use out of direct sunlight and on cold surfaces. Dilute the product depending on the application method .

Machine: Use Nasiol Cleanion Pro Marine by diluting 1:1 (foam lance), 1:100 (water tank). Apply a thick layer of the foam onto the surface of marine vessel and leave it to dwell for 1-2 minutes. Rinse the marine vessel thoroughly with a high-pressure washer to remove all surfactants. Gently dry the marine vessel with a soft and lint-free drying towel.

Bucket: Rinse off the vehicle with hose or high-pressure water. Dilute 20mL (2 caps) of Nasiol Cleanion Pro in 10L of warm water. Apply it to the vehicle with a high-quality wash mitt. Use a two or three-bucket car wash method with a grit guard if possible. Work in small sections from top to bottom in straight lines while shampooing. Allow hard-to-shift grime to soak for a while. Rinse the vehicle thoroughly with hose or high-pressure washer to remove all surfactants. Gently dry the vehicle with a soft and lint-free drying towel to prevent water spotting.
