# WHO ARE WE?

Artekya is a technology-focused manufacturer specializing in nano surface protection solutions.

Nasiol is Artekya's global brand, developed through advanced nanotechnology research and proven production expertise.

Artekya develops high-performance nano coating technologies used across industries such as automotive, industrial applications, household products, textiles, personal goods, and marine surfaces.

Beyond its own branded portfolio, Artekya offers privat label and OEM manufacturing solutions, supporting partners from formulation and customization to scalable production and quality assurance.

Nasiol products are available in more than 145 countries, supported by Artekya's R&D Center and Head Office in Turkey, alongwith operational centers in the Czech Republic and the United States.

All products manufactured by Artekya undergo strict quality control and testing before distribution to ensure consistent performance and global compliance.

# 4 STEPS

## 4 STEPS TO BUILD YOUR OWN BRAND

### 1 PICK THE PRODUCTS

### 2 CHOOSE YOUR PACKAGING MATERIALS

### 3 DESIGN LABELS & BOX IN COOPERATION

### 4 WE PREPARE THE TDS, SDS, NECESSARY PERMITS, PACKAGE AND SHIP THE PRODUCTS

All processes, excluding the design phase, are completed within **15 business days**.

# WHAT DO WE OFFER?

## READY-MADE PRODUCTS

Choose one of our ready-made product solutions. Box design, label, bottle, and included components can be customized based on the selected options.

## BOTTLE PACKAGING ONLY

Choose your chemical and bottle without a custom box. We fill, label, pack, and ship your products ready for sale.

## BULK PURCHASE

Our products can be packaged and supplied in 1 L, 5 L, 20 L, and larger volumes to meet your specific commercial needs.

# Packaging and Design Conditions

- In case the private label owners procure the materials such as cloth, bottle, cap etc. on their own, the full performance of the product cannot be guaranteed.
- In cases where the bottle supply belongs to the private label owners, the filling process belongs to them.
- There are minimum order quantities for product materials (box, bottle, label, guide, etc.) in the custom marking process. Selection should be made taking into account the minimum order quantities. Consult your sales representative regarding this issue.
- Extra pricing is made for materials such as box, label, user manual, application blocks, etc. if they count as non-standard.
- The contents of the box, label and user manual are the responsibility of the private label owner.
- The private label owners can make designs on their own or request it from our company. Consult the sales representative for the design cost.
- In case the original box or label sample is requested, the sample cost belongs to the private label owner.
- Upon confirmation of the order and payment, the private labeling process officially begins.
